

# ACCO-USB

## RS-485 TO USB INTERFACE

Growing market demand for standalone access control system inspired SATEL's engineers to develop flexible solution that meets the requirements of numerous groups of customers.

ACCO system consist of distributed intelligent devices networked for central supervision and management. The combination of proven hardware and software solutions with though out system concept ensures the highest possible quality and makes it suitable for individual needs.

### FEATURES

- RS-485 **ACCO** system bus to PC USB connection
- socket RJ-45 for **ACCO-USB-CZ** system management reader
- powered by USB port
- Plug&play installation
- LEDs for device state indication

### TECHNICAL SPECIFICATION

<b>Supply voltage</b>	5 V (derived from USB port)
<b>RS-485 bus maximum range for UTP type cable</b>	1200 m
<b>Maximum number of modules connected to RS-485 bus</b>	255
<b>Two-way transmission scheme</b>	HALF-DUPLEX
<b>USB standard</b>	USB 2.0
<b>Working temperature range</b>	+5°C...+40°C
<b>Housing dimensions</b>	125 x 114.5 x 31 mm
<b>Weight</b>	250 g
