

ASW-100 F

ASW-100 F is a wireless controller for devices powered from 230 V AC mains. It is designed to work in the **ABAX** two-way wireless system and is supported by the **INTEGRA 128-WRL** control panel, **ACU-120**, **ACU-270** and the older **ACU-100** and **ACU-250** controllers, as well as with **ARU-100** radio signal repeater. The controller is connected directly to the 230 V AC wall outlet. It allows you to remotely and manually switch on / off any device with power consumption up to 16 A (resistive load) connected to the built-in type E socket (EURO – with an earth pin), so it can find almost infinite number of applications. For ease of use, it comes with a LED indicating the operating status (on/off).

- wireless remote switching of mains powered appliances
- manual operation mode
- built-in status indication LED
- safe and aesthetic enclosure with plug and socket integrated
- available in SCHUKO (type F) versions

Maximum load	16 A
Environmental class	II
Socket type	F
Plug type	hybrid (E and F type)
Enclosure dimensions	65 x 100 x 77 mm
Operating temperature range	-10...+55 °C
Supply voltage (±15%)	230 V AC, 50-60 Hz
Operating frequency range	868,0 ÷ 868,6 MHz
Weight	131 g
Radio communication range (in open area)	up to 500 m
