

B-2T

MAGNETIC DETECTOR (WHITE)

Magnetic detectors constitute basic elements of perimeter protection systems and their primary task is to detect attempts of opening doors and windows. Medium-size **B-2 T** tight face magnetic detectors are designed for flush mounting in door or window leaves and frames. This mounting method makes them invisible from the outside. They are equipped with screw terminals. The detectors are available in white and brown colour versions.

- recessed mounted
- screw terminals
- sealed body

TECHNICAL DATA

Max. reed switched voltage	100 V
Max. switched current	500 mA
Operating temperature range	-10...+55 °C
Weight	6 g
Maximum humidity	93±3%
Make distance	19 mm
Break distance	20 mm
Dimensions magnet enclosure	ø9 x 14,5 mm
Environmental class according to EN50130-5	II
Detector type (outside magnetic field)	NO
Reed switch enclosure dimensions	ø9 x 23,5 mm
