declare under sole responsibility that

product: ACSP-RSI - RS-485 bus galvanic isolator

Product description: The ACSP-RSI module is used for galvanic isolation of the ACSP-402 fire alarm control panel and the APSP-402 repeater panel connected using the RS-485 bus (when isolated, the repeater panel does not have to be connected to the same protective earth circuit (PE) as the control panel), connecting a thermal serial printer (this enables printing of events registered by the control panel). The module is an optional element of the ACSP-402 addressable fire alarm system.
